Construction Update for Gowrie and Farnhamville

Work is continuing as separate crews complete different aspects of installing the new fiber system. Although a lot of progress has been made, there are still many steps to complete before the service is cutover to each home or business.

Crews installing the duct work for main lines and drops to buildings are finished in the Gowrie and rural Farnhamville areas. They have also installed new cabinets and hand holes where the fiber will be spliced. They are continuing in the town of Farnhamville and finishing some clean up work in Gowrie.

A splicing crew has been working in Gowrie to test and splice cables together. Once all the cables are connected together in the network they will be tested for accuracy.

Mid-November crews will be back to install a NID (Network Interface Device) on buildings. This, currently empty, box will be installed where the conduit or duct work comes out of the ground. Then your home or business will be ready for the next phase of construction: cutting to the new service which will be done later.

If you have questions or concerns about the construction, please feel free to contact our office at 352-3151.

The next step in fiber network construction will be the NID or service box on the side of your home or business.

Happy Thanksgiving!

Remember WCCTA's office
will be closed on
November 22nd and 23rd.

It's time to get started on the 2008
**Central Iowa Area Telephone
Directory!**

Representatives from Independent Pinnacle Services, our directory publisher, will be in the area during November to contact businesses about directory advertising.

See a local business listed in the yellow pages? Make sure you tell them you saw it in the Central Iowa Area Telephone Directory! The *official* telephone directory of Webster-Calhoun Cooperative Telephone Association and Lehigh Valley Cooperative Telephone Association.

How is your name listed in the Central Iowa Area Telephone Directory? Please contact the WCCTA office at 352-3151 to make any listing changes.
