

Clearly, most people have a strong desire to eliminate disruptions caused by unwanted phone calls.

In 2003, the FCC changed the rules for telemarketers, and millions of households responded by placing their phone number on the Do Not Call list.

The FCC rulings, however, do not completely eliminate telemarketer calls. Telemarketers calls will continue to be placed on behalf of politicians, non-profit organizations, and companies with recent business relationships with households.

This leaves many customers still demanding a solution that effectively blocks telemarketer calls.

An Intelligent Telemarketer Call Screening Service

PRIVACY CONTROL/ DO NOT DISTURB

Gain the privacy you deserve from unwanted callers.

Terminating Call Manager
is an intelligent Call Screening service that blocks telemarketers and at the same time “learns” who your friends are so that their calls complete without interference.

DIAL *98 FOR MAIN MENU AND FOLLOW THE PROMPTS:

PRESS 1 TO ADD A NUMBER TO BLOCKED LIST

PRESS 2 TO REMOVE A NUMBER FROM BLOCKED LIST

PRESS 3 TO REMOVE ALL NUMBERS FROM BLOCKED LIST

PRESS 4 TO ADD A NUMBER TO KNOWN LIST

PRESS 6 TO TURN SERVICE ON

PRESS 7 TO TURN SERVICE OFF

PRESS 8 TO BLOCK CALLS FROM PRIVATE CALLERS

PRESS 9 TO ALLOW CALLS FROM PRIVATE CALLERS

HOW IT WORKS

With this service, all calls will be screened with the exception of local calls (all WCCTA and Lehigh Valley exchanges) and local wireless calls (515-351). Other callers will hear an announcement.

The service will effectively screen telemarketers, because they should not press the ‘1’ to connect. You do not have to activate anything for telemarketer call screening to work. However, you may wish to take advantage of other call management features provided by the service.

RECORDED ANNOUNCEMENT

“The number you have reached does not accept calls from telemarketers. If you are a telemarketer please add this number to your Do Not Call list and hang up now. If you are not a telemarketer, please press ‘1’.” If the caller presses ‘1’, the service will remember their phone number so the next time they call you they will not hear the message.

KNOWN CALLER LIST

You can manually add numbers to your known caller list to prevent specific callers from hearing the announcement. Dial *98 to access the service and follow the voice prompts. For example, if your parents or siblings live out of state, you can add their numbers to your know number list and they will not hear the telemarketer announcement.

BLOCKED NUMBER LIST

If someone calls you and you do not want them to be able to call you again, you can add their number to your Blocked Number list. After you hang up, immediately pick up the phone and dial *99 to add them to the list. You can also call *98 and follow the voice prompts.

PRIVATE BLOCKED NUMBER LIST

If you decide that calls should no longer be blocked from a specific number, you can remove a number from your Private Blocked Number List. Dial *98 to access the service and follow the voice prompts.
